## **DETAILED ACTION**

### ***Response to Amendment***

1. The amendment filed July 7, 2005 has been entered and claims 15 and 16 have been cancelled.

### ***Drawings***

2. The drawings filed November 27, 2001 are accepted by the Examiner.

### ***Allowable Subject Matter***

3. Claims 1-14 are allowed.
4. The following is an examiner's statement of reasons for allowance: The combined references which are pertinent to applicant's disclosure, Takeda et al. ("Takeda") USPN 6,724,452 and Ito ("Ito") JP 2-191194, teach a liquid crystal display apparatus comprising a pair of substrates; a liquid crystal layer having negative dielectric anisotropy sandwiched by the pair of substrates; a plurality of pixel electrodes on a surface of said substrates facing said liquid crystal layer and a counter electrode on a surface of the other of said substrate facing said liquid crystal layer; wherein liquid crystal molecules in the liquid crystal layer of each pixel are oriented in a direction substantially perpendicular to a substrate surface in the absence of an applied voltage, are oriented in a direction substantially parallel to the substrate surface in the presence of an applied predetermined voltage, and are oriented in a slanting direction with respect to the substrate surface in the presence of an applied voltage less than the predetermined voltage. However, Takeda and Ito fail to teach at least one of the electrodes of each pixel consisting at least first and second tilted surfaces adjacent to one another and respectively facing

directions different from a direction substantially perpendicular to said substrate surface. The above limitations in combination with other claim limitations are not taught or fairly suggested by the prior art nor would it be obvious to modify the references of record so as yield the LCD apparatus of the instant application.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to A. Sefer whose telephone number is (571) 272-1921.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nathan Flynn can be reached on (571) 272-1915.
